Bryan Statt
John Stobbe

Highlights in 2017 include:

- Completed a more robust contract for Third Party Data Access.
- Solidified Third Party Data Access process.
- Removed all Sold Data access to Third Parties until recommendations on how to regulate access is brought forward by the Technology Committee.
- Began searching for alternative options for Showing Services.
- Created a new process by which to view new applications for Members' usage. This aims to reduce reviewer bias.
